### Kobra K-array system at "Milionario" Studios

The new Kobra K-array systems have been installed in the studio of one of the most popular shows broadcast by Italian TV.

11-12-2007

The new **Kobra K-array** systems have been installed by **BackstagePA** in the studio of one of the most popular shows broadcast by Italian TV.

The format of the show, Endemol in Italiy, is one of the most famous at International level.

At present, two clusters have been installed, which include 2 KK50 satellites for the PA and 2 KM8 monitors for the presenter and the player.

The particular shape, the dispersion characteristics and the power of these loudspeakers make them particularly fit for applications where invisibility is paramount.
